AAMA Offers Update to Latest Fenestration Standard

SCHAUMBURG, Ill. – An update to AAMA/WDMA/CSA 101/I.S.2/A440-08, NAFS – *North American Fenestration Standard/Specification for windows, doors, and skylights* is now available for electronic download from the American Architectural Manufacturers Association (AAMA). According to Ken Brenden, AAMA technical standards manager, the Update #1 includes editorial revisions to the 137 pages standard/specification published in January 2008.

“Minor updates have been made to the 2008 standard, including revisions to Clause 4.3.2.1, Table 27 and Figure 24,” per Brenden. Revisions were also made to Pages 29, 30, 75, 76 and 111-116 and these are available as replacement pages.

In the Update #1 Clause 4.3.2.1, which outlines testing requirements for optional performance grades (PG), an additional specimen will undergo all applicable tests in Clause 5 if it is wider or taller than the original specimen. This is a slight modification to the January 2008 standard, which states all applicable tests will be performed if the additional specimen is wider *and* taller than the original specimen.

Clarification of the primary product designator has been made in Figure 24 showing an example of a test report summary and Table 27, which charts gateway performance requirements, also notes minor revisions. The replacement pages included in Update #1 can be inserted into copies of the January specification and the removed pages may be kept for reference if necessary.

AAMA/WDMA/CSA 101/I.S.2/A440-08, NAFS – *North American Fenestration Standard/Specification for windows, doors, and skylights* - Update #1 is available for download at no cost. It is also included at no additional cost with purchase of AAMA/WDMA/CSA 101/I.S.2/A440-08, NAFS – *North American Fenestration Standard/Specification for windows, doors, and skylights*, which is available to members at a cost of \$25 for electronic download and \$38 for paper copy. Non-members may purchase the document at a cost of \$50 for download and \$75 for paper copy. To order, visit the AAMA Online Publication Store at www.aamanet.org; call 847-303-5664; or write the American Architectural Manufacturers Association, 1827 Walden Office Square, Suite 550, Schaumburg, IL 60173.

*AAMA is the source of performance standards, product certification,
and educational programs for the fenestration industry.SM*
