United States Aluminum Presents The Improved Series 7500 Concealed Vent Window

Waxahachie, Texas, Nov 28, 07 — United States Aluminum has completed a revision of the Series 7500 Concealed Vent Window.

The Series 7500 Concealed Vent Window is a minimal siteline swing out window perfect for use in storefront, ribbon window and curtain wall openings. The window system has a 1 9/16" face dimension, a frame depth of 3" and is available for ¼" and 1" glass. The maximum available size for the window is 60" x 32" or a total of 15 square feet. Standard hardware includes stainless steel four bar hinges and cam locking handles. Finishes range from our standard paint colors and custom matched painted coatings to a selection of clear, bronze and black anodic finishes.

With the addition of 1" laminated glass and impact rated hardware Series 7500 passed Large Missile Impact Resistant testing, making the window an ideal choice for projects in hurricane-prone coastal areas.
