Azon named SWMF Catalyst Award winner

KALAMAZOO, MI—At an award luncheon on Thursday, November 15, Southwest Michigan First (SWMF) named Azon USA, Inc. one of two quarterly recipients of the SWMF Catalyst Award, a recognition given to honor outstanding companies in the community “for their commitment to growth in the Kalamazoo Region” (www.southwestmichiganfirst.com).

Since its founding as a family business in 1977, Azon has been a leader in the development of polyurethane pour and debridge chemical and machinery solutions focused on energy-saving technologies for manufacturers of aluminum windows, doors, skylights and curtain walls.

With a tradition based on the premise “Azon Saves Energy,” Azon technology positively affects people and the environment by offering products and services designed with sustainability in mind.

For more information about Azon or the company’s products, visit www.azonintl.com or call 1.800.788.5942.
