CGI Names Ignacio Escobedo to VP of Manufacturing

Hi-resolution photo available upon request

MIAMI – July 10, 2008 – CGI Windows and Doors, Inc., a leading manufacturer of premium, impact-resistant windows and doors, has named Ignacio Escobedo to the position of Vice President of Manufacturing. Escobedo will oversee all aspects of the manufacturing responsibilities. He brings more than 16 years of manufacturing experience from leading high tech companies.

“Ignacio will be important in improving our productivity and incorporating the latest manufacturing techniques and processes,” said Jorge Santaella, Chief Operating Officer. “With his impressive background, we expect to significantly improve our operations.”

Most recently Escobedo served as general manager for two plants at WAI-Semicon, an automotive and industrial OEM manufacturer. Prior to his tenure at Semicon he spent 11 years with Motorola in increasing areas of manufacturing responsibilities, where he acquired extensive lean manufacturing and six sigma experience.

Ignacio has an executive MBA from the Instituto Tecnológico de Estudios Superiores de Occidente in Guadalajara, Mexico and an undergraduate degree in Electro Mechanical engineering from Universidad Autonoma de Guadalajara, Mexico.

About CGI

CGI has a strong reputation for offering architectural-grade impact windows and doors with unique features and high-quality construction that exceed industry standards. CGI products have been specified and installed in some of the most prestigious residential and commercial projects in South Florida, including the Palm Beach Breakers Hotel historical restoration. Established in 1992, the company was the first impact window and door manufacturer to offer PVB laminated glass designed exclusively to meet the Miami-Dade County impact-resistant protocols.
