DeBoer joins Azon's service team

DeBoer

KALAMAZOO, MI—Azon USA, Inc. would like to formally introduce **Dave DeBoer** as a new field service representative in the sales and marketing department. He joins Azon's sales team to provide expanded service to our customers.

DeBoer comes to Azon with nearly 20 years of experience with polyurethane metering/dispensing equipment. He is experienced in technical service, customer service, machinery installation, pneumatics, hydraulics, electrical controls, programmable controllers, AutoCAD and other industrial-related mechanical skills.

At Azon, DeBoer's responsibilities will include installing, maintaining and servicing the full range of Azon products across the globe.

With headquarters in Kalamazoo, Michigan, Azon serves the world as a leader in the development of polyurethane chemical and machinery solutions.
