EFCO® opens new service center in Las Vegas area

— *Facility serves Western U.S. customers, cuts transportation time, expense* —

MONETT, Mo. — Jan. 5, 2009 — “In construction, time IS money and proximity to serving customers is critical to success,” said EFCO President and Chief Operating Officer (COO) Mike Farquhar. “To leverage our business strength and our commitment to helping customers save time AND money, EFCO is expanding by opening a service center in the Las Vegas area to make our commercial fenestration products available more quickly and cost-effectively,” he said.

According to Farquhar, the company’s new location at 451 Mirror Court in the Las Vegas suburb of Henderson, Nev., will provide careers for about 15 team members who serve customers in the Phoenix, Salt Lake City, Southern California and Las Vegas areas and more. The company will fabricate products and provide estimating and customer service from the center, observing its grand opening in January of 2009,” Farquhar said. The phone number for EFCO’s newest location is 702-564-9176.

“Our new service center will provide regional access to stock lengths, fabricated materials, entrance doors, and selected curtain wall accessories, helping reduce the time and freight expense for EFCO customers in the West and Southwestern U.S. seeking quality aluminum fenestration materials for their construction needs,” Farquhar said.

People interested in applying for a career with EFCO’s Nevada Service Center are asked to apply with Nevada Job Connect at 119 Water Street in Henderson, Nev. 89015 or call 702-486-0129. The Web site address is www.nevadajobconnect.com.

About EFCO Corporation

Headquartered in Monett, Mo., privately-held professionally-managed EFCO provides innovative customer solutions to satisfy commercial design challenges from historical replication to cutting-edge new construction. EFCO manufactures architectural windows, curtain walls, storefronts, and entry systems designed for commercial construction needs sold through independent sales representatives across the United States.

EFCO team members are dedicated to supporting the building community with products, services, and programs that promote outstanding commercial design.

Since its introduction of thermally-improved framing and accessories in the 1970s, energy-efficient products have helped set EFCO Corporation apart from other fenestration manufacturers. The company’s environmental commitment continues to thrive through the use of technology to create energy-efficient solutions. EFCO is a proponent of energy conservation and recycling during manufacturing and is committed to environmental leadership by creating and implementing products and processes that

will help support a "greener" world. For more information visit efccorp.com or call 417-235-3193.
