FEN-TECH Teams-up with Stern & Company to Expand Sales

FEN-TECH, Inc., a Superior, Wisconsin, based company, has teamed-up with Stern & Company of Cleveland, Ohio, to represent FEN-TECH in Ohio, Kentucky, West Virginia, Indiana, Illinois, Michigan, Pennsylvania, and New York. "We're pleased to bring this well established team into our business group," says Mike Mirau, President of FEN-TECH, Inc. "They are a top-selling sales agency for some of the leading window-and-door component suppliers in the U.S. and will help us strengthen and expand our presence in the Midwest as well as into northeastern states like New York and Pennsylvania."

Stern & Company Inc. was founded in 1962 to represent component and IG manufacturers to the window and door industry in the Midwestern U.S. market. Their sales representatives are all Certified Professional Manufacturers' Representatives (CPMR) with many years of experience.

According to Deedee Paster, finance and office manager, Stern & Company, "It's about the synergy we have together and about bringing a full line of products to our customers. The more well-rounded our line card is the better we can serve our customers' needs. The addition of FEN-TECH to our product line is very important to that effort."

For more information, contact Matthew Mirau, of FEN-TECH, Inc., 1510 North 5th Street, Superior, Wisconsin 54880. Phone: 715-392-9500/Fax 715-392-9505. Download photos at: <http://www.fentechinc.com/advsup>
