FOR IMMEDIATE RELEASE

November 14, 2008

ARCH OPENS NEW FACILITY IN YOUNGSVILLE, NC.

TAMARAC, FL- Arch Aluminum & Glass is pleased to announce the opening of a new state of the art glass and aluminum fabrication facility in Youngsville, NC. Arch had outgrown its current operational setup in Youngsville, resulting in this new move.

"We now have 100,000 square feet on 10 acres, in the same neighborhood and we were able to move with no disruption to our employees or customers."

Commented Arch Aluminum & Glass President & CEO Leon Silverstein.

The facility features all new equipment, including a double bay tempering furnace, cutting tables with automated edge deletion capability, and an 84" laminated autoclave.

"Laminated in the Carolina region is important and that will be an aggressive growth area for us." Silverstein said.

In addition, on the glass side, Arch installed additional equipment for heavy glass fabrication for its All Glass Entrances product line (AGES).

In addition on the Aluminum side, the new operation has all of the staples of Arch's complete product line, including the industry leading, RESISTOR® Impact resistant material; as well as curtainwalls, storefronts, entrances, and tempered glass doors.

"There's no doubt in my mind that this is the premier glass & aluminum operation in the Carolinas." Silverstein added.

Arch Aluminum is your *TRUE SINGLE SOURCE®* for Architectural Aluminum, Extrusions, Insulated, Tempered, Mirrors, Laminated, and Decorative Glass. Arch is an American-owned, family business founded in 1978. Arch now operates 33 facilities in 17 states with over 2200 employees.
