

Nashville Tempered Glass goes

Founded in 1984 with a main site in Nashville, TN and an additional plant in Hendersonville, TN, Nashville Tempered Glass is a custom glass fabricator serving the Southeast and Midwest US market.

The state-of-the-art company serves the door & window, agricultural, architectural, commercial and residential glass markets with fabricated tempered and annealed glass. Laminated glass with PVB interlayers is fabricated to any specification as well as bent glass, IG and processed glass such as beveled, grooved, polished, sandblasted and silk screened. Shower doors, mirrors, pattern glass and grooved beveled glass are available to satisfy any design requirements. NTG is committed to providing the glass industry dedicated service and quality to meet the many markets it serves.

, President of NTG comments: “We realized that we needed to improve our software infrastructure and are looking forward to the implementation of state-of-the-art software from Ohio based FeneTech Inc. For many years we were using UNIX based software, which allowed us to grow our company to the point we are now. The new FeneVision ERP software however will get us to the next level of excellence. We have looked at many glass software solutions on the market and were not able to find one that suited our needs. When we were introduced to the FeneVision ERP solution we were amazed by the graphical user interface, the ease of use, the flexibility and the power of this ultra modern software solution. We are very excited about this step as this will ensure that we, as a service and quality-based company, keep growing our company further.”

, Director of Global Sales for FeneTech ads: “We welcome NTG as a new customer and are very excited about this cooperation. FeneTech keeps growing a lot, thanks to the fact that glass companies in North America and also worldwide realize that our solution is the only way to go when it comes to selecting an integrated, powerful and modern software solution. This will ensure that we keep growing our market position further on our journey to become the most successful software company in this industry – world-wide!”

, President of FeneTech comments: "Nashville Tempered Glass is a recognized industry leading supplier. Like many good companies they had a software solution that allowed them to grow to a certain level but did not provide the tools to take them to the next level. We are thrilled that they have selected FeneVision ERP as the tool that will help them realize their full growth potential."
