ANA ANNOUNCES FALL CONFERENCE 2008 DATES, LOCATION

(TOPEKA) - The Glass Association of North America's (ANA) announced the dates and location for its annual Fall Conference 2008 today. The event, which features an agenda heavy on technical work, including creation of Glass Informational Bulletins, various manuals, standards and more, will take place at the Wyndam DFW North Airport in Dallas, Texas on September 8-10th next year.

"Six of ANA's seven Divisions will hold meetings at this event," said Ashley Charest, Account Executive for ANA. "The ANA Fall Conference has long been fertile ground for many technical items from the Association that have found tremendous success within the industry."

Attendance is encouraged for all ANA members wishing to have a voice in the shaping of the glass and glazing industry. Registration for the event will appear on the ANA website in early Summer 2008. Please visit the website at www.glasswebsite.com for more information.
