Bill Marchitello of Prelco Elected GANA Insulating Division Chair!

(TOPEKA) - The Glass Association of North America (GANA) announced today that Bill Marchitello of Prelco Inc. was elected by the GANA Insulating Division to be its new Chairman. Marchitello succeeds Bob Larson of Craftsman Fabricated Products. Marchitello has been in the glass industry for over 40 years.

“This allows me the opportunity to give back to the Association that has, over the years, provided me with up-to-date technical and educational guidance,” said Marchitello. “That guidance is greatly appreciated.”

Marchitello is currently the Marketing and Market Development Corporate Director and Eastern Sales Director for Prelco Inc., based in Canada. Previously, he was a co-owner of Thermalite, Inc. for fifteen years. The merger of Prelco and Thermalite gave Bill the opportunity to provide Prelco customers with a "one stop shop.”

Over his extensive years in the industry, he has been a key player in the development and promotion of insulating glass (IG) units. Marchitello serves on a number of working committees within GANA, and he is the current Vice President of the Insulating Glass Manufacturers Alliance (IGMA).
