

APPOINTMENTS IN AMERICAS

Jack Van Meerbeeck has been appointed as Vice President, Sales & Service, North America and Raimo Nieminen as Vice President, Sales & Service, South America in Glaston Corporation. In their new roles Mr. Van Meerbeeck and Mr. Nieminen are responsible for the sales and service of Tamglass and Bavelloni products in their respective regions.

In his new role, Nieminen assumes responsibility for commercial matters over South America as well as being the commercial manager for Tamglass sales in North America.

We are also pleased to announce the hiring of Dan Thompson as Sales Manager, Bavelloni machinery for North America. He brings extensive experience in sales, marketing and product development to the company.

Additionally, Scott Bell has been appointed as Vice President, Finance & Administration for Glaston North and South Americas. In his new role Mr. Bell will have overall responsibility of administrative processes for the sales & services, including control, treasury, ICT, legal and HR.

Glaston Corporation

Glaston Corporation (formerly Kyro) is a growing, financially solid international glass technology company. Glaston is the global market leader and One-Stop-Partner in glass processing machines. Its product range and service network are the widest in the industry. Glaston's well-known brands are Bavelloni in pre-processing machines and tools, Tamglass and Uniglass in safety glass machine and as of July 2007 Albat+Wirsam software.

Glaston's own glass processing unit, Tamglass Glass Processing, is a local Finnish supplier of high quality safety glass products.

Glaston (GLA1V) is listed on the Helsinki Stock Exchange's (OMX) Mid Cap list.
