

Hartung Wilsonville Certified as Guardian SunGuard Fabricator

Hartung Glass Industries (HGI) and Guardian Industries announced that Hartung Glass Wilsonville has joined Hartung's Seattle and Sacramento locations as Guardian Select Fabricators offering SunGuard advanced architectural glass products.

According to the announcement, the certification of Hartung's Wilsonville location will free up capacity in HGI's Seattle and Sacramento facilities, allowing the company to focus on service and product selection while progressively expanding in the high-performance insulating glass markets in Alberta, British Columbia; Colorado; Hawaii and Texas.

To celebrate the SunGuard Select Fabricator certification of Hartung Wilsonville, Hartung and Guardian are giving away one 32GB iPad with wifi to the person or group that submits the best overall photograph or image of a SunGuard project supplied by Hartung Glass.
