**INTERMAC EXPANDS SALES TEAM  
North American Glass Product Manager Appointed**

**Charlotte, NC, January 17, 2008** – As part of its ongoing expansion, Intermac America, the leader in glass and stone fabrication machinery, recently appointed sales veteran Carey Brayer to the position of North American Glass Product Manager.

Mr. Brayer has 20 years experience in management, business development and sales, with particular expertise in the glass industry. While managing the North American subsidiary of a major glass machinery manufacturer, he was responsible for developing and leading a sales force that achieved the highest machinery sales ever in the North American glass market.

"We are confident that with his exceptional leadership skills and track record, Carey Brayer will be a key asset in driving sustained and strategic growth for Intermac in the glass segment of our business," said Federico Broccoli, President and CEO of Intermac America/Canada and Biesse America/Canada.

Mr. Brayer will lead sales efforts for Intermac's complete line of glass machinery in the U.S. and Canada. The line is highlighted by the Master Series, which offers CNC solutions ranging from entry-level machines to the Master Twin, a state-of-the-art four-axis work center introduced to the North American market for the first time in October 2007.

Biesse America established InterMac America and InterMac Canada in April 2007, after acquiring AGM, Inc., the leading North American distributor of InterMac brand glass and stone equipment. The company has since implemented a variety of organizational and policy changes aimed at streamlining processes and service quality across all divisions.

Strengthening its glass and stone business is integral to Biesse's broader corporate vision for growth in North America. Parent company Biesse S.p.A. is investing more than \$20 million in new construction for Biesse America and InterMac America, which recently acquired 14 acres of land adjacent to its Charlotte, NC headquarters to accommodate expansion. A new headquarters building is slated for completion at the end of 2009.

**ABOUT BIESSE S.p.A.** – Founded in 1969 in Pesaro, Italy, Biesse S.p.A. is a leading manufacturer of wood, glass and stone fabrication equipment, supplying innovative engineering solutions to the panel machining and furniture making industries. #1 in the manufacture and sale of CNC machines, Biesse S.p.A.'s products range from turnkey systems to individual machines, workstations and high-tech components. Along with an extensive global distribution network, Biesse S.p.A. has 18 subsidiaries on five continents and 2,400 employees.

Biesse S.p.A.'s North American presence is comprised of woodworking division Biesse America (Charlotte, NC)/Biesse Canada (Montreal, QC), and stone and glass division InterMac America (Charlotte, NC)/InterMac Canada (Montreal, QC).
