MATTHEW ROSE NAMED NEWEST MEMBER OF SAFLEX® TEAM
Rose Appointed as New Commercial Market Manager

ST. LOUIS—Sept. 22, 2008—Saflex®, a unit of Solutia Inc. and the world’s leading PVB interlayer manufacturer, has added Matt Rose to its North American Architectural Marketing Team. Rose will serve as the Commercial Market Manager out of the company’s headquarters in St. Louis.

Rose will liaison with glazing contractors, commercial framing manufacturers, residential window manufacturers, architects, and other professionals in the architectural laminated glazing market. His responsibilities will include introducing Saflex branded products to these groups along with providing technical, marketing, and branded program support.

Rose comes to the Saflex team with a background in marketing and product development from Ingersoll Rand, an international supplier to transportation, manufacturing, HVAC, supermarket and construction industries. During his tenure at Ingersoll Rand, Rose served as a Marketing Analyst, Assistant Product Manager, and Product Manager. Rose earned a Master of Business Administration from Saint Louis University’s John Cook School of Business in 2005 and a Bachelor of Science in Business Administration from the University of Missouri-Columbia in 2003.

“I am truly honored to be a part of the Saflex team,” said Rose. “I am looking forward to using my experience and education to help Saflex expand its leadership position as a supplier of high quality products.”

Rose also comes to Solutia with significant volunteer experience. He has worked with American Cancer Society, Meals-On-Wheels, and the Special Olympics. He also taught at an elementary school as a lay missionary in Belize, Central America.

About Saflex®, a unit of Solutia Inc.

With 80 years of experience in developing glass interlayers, Saflex is the world's largest producer and seller of PVB interlayers, and is known as the global leader in PVB innovation, quality and reliability. When laminated between layers of glass, PVB interlayers greatly enhance the performance characteristics of glass, providing benefits such as security, solar protection, sound attenuation and safety. Laminated glass made with Saflex PVB is used extensively in both the automotive and architectural markets. For more information, visit www.saflex.com.

Notes to Editor: Saflex is a registered trademark of Solutia Inc.

About Solutia Inc.

Solutia is a market-leading performance materials and specialty chemicals company. The company focuses on providing solutions for a better life through a range of products, including: Saflex® interlayer for laminated glass; CPFilms® aftermarket window films sold under the LLumar® brand and others; high-performance nylon polymers and fibers sold under brands such as Vydyne® and Wear-Dated®; and technical specialties including the Flexsys® family of chemicals for the rubber industry, Skydrol® aviation hydraulic fluid and Therminol® heat transfer fluid. Solutia's businesses are world leaders in each of their market segments. With its headquarters in St. Louis, Missouri, USA, the company operates globally with approximately 6,000 employees in more than 60 locations. More information is available at www.Solutia.com.
