RE: Press Release for UGCs New Corporate Identity

United Glass Corporation (UGC) proudly announces their new corporate identity, which exemplifies the ever-growing synergistic mission that has made UGC one of the largest fabricators in North America. In an effort for continuing unification, UGC has developed a new logo and complete corporate graphic identity that will be used throughout all locations. The new identity emphasizes UGC's place as a leading, independent fabricator and processor of value-added glass products, strategically located to service commercial construction end markets in the Mid-West and Eastern United States. The companies known as: Pdc Glass & Metal Services (Cheswick, PA), Pdc of Michigan (Plymouth, MI), Tempered Glass Inc. (Atlanta, GA), Mid-Ohio Tempering (Columbus, OH), and Louisville Plate Glass (Louisville, KY) will now incorporate United Glass Corporation into their individual location logos.

UGC has focused efforts on local and regional service east of the Mississippi, while completing projects from coast to coast. With 200 years of combined industry experience, along with state-of-the-art equipment, UGC provides world-class service, on-time delivery and produces quality products while exceeding clients' expectations.

UGC has sustained the industry's respect as THE source for the most demanding projects, supporting the stringent requirements of today's architectural/building community, having been selected for some of the most prestigious buildings in the country. UGC continues to invest in state-of-the-art facilities and equipment, strengthening its dedication to better serve their customers.

Experience the synergies for yourself by visiting United Glass Corporation new corporate website at www.ugcglass.com.
