## Vistamatic Partners with Smrtnik Sales in Ohio and Kentucky

***For Immediate Release:*** Vistamatic, a global leader in the design and manufacturing of observation window systems, has announced John Smrtnik of Smrtnik Sales as its manufacturer representative for Ohio and Kentucky. With a strong focus on healthcare and hospitality decision makers, Smrtnik Sales will market and promote the Vistamatic line of vision panel window systems to commercial architects, specifiers, distributors and contractors in both Ohio and Kentucky.

Vistamatic's 100 percent recyclable observation window systems are uniquely designed for unrivaled sight lines in environments where style, privacy, security and quiet observation are needed.

"I was looking for a unique product that would fill a niche," said Smrtnik. "There are not a lot of companies out there offering unique products like the Vistamatic line. There is a need for this product. There is demand. Vistamatic is the only company that offers something compatible with a mini-blind, but in my opinion is a much better product."

Contact John Smrtnik at [smrtniksales@gmail.com](mailto:smrtniksales@gmail.com), or call 513-933-9700.

Vistamatic vision panel observation windows are the perfect solution for architects, designers or commercial specifiers in a multitude of environments including healthcare, institutional, event and corporate centers, where security and privacy are critical. Available in several sizes to accommodate virtually every application, the Vistamatic observation vision panels are manufactured standard in 10" x 10", 12" x 12", 18" x 18", 5" x 20", 6" x 30", 24" x 30", and now 48" x 48" sizes. Custom sizes are available by special order. In addition, Vistamatic has recently launched the circular Vistaport in one standard, 15¾" size.
