Vistamatic Has New Number and Address

For Immediate Release: Vistamatic, a global leader in the design and manufacturing of observation window panel systems, has re-located its North American headquarters. The new address is: 7351 Wiles Road, Unit 202, Coral Springs, Florida 33067. The new phone is 866-466-9525, and all faxes should be sent to 866-861-9135.

Vistamatic observation windows are the perfect solution for architects, designers or commercial specifiers in a multitude of environments including healthcare, institutional, event and corporate centers, where security and privacy are critical. Vistamatic Vision Panels are available in several sizes to accommodate virtually every application.

Vistamatic vision panels are the result of years of research and development and the patented construction of the Vistamatic vision panel system includes three sheets of glass set within an insulated unit, operated by Vistamatic's exclusive lever mechanism. Turn the lever and the inner sheets of glass rise enabling observation, turn the lever or handle back and vision is obscured. The Vistamatic Corner Unit is the ideal observation window solution in healthcare, office, hospitality or institutional settings, available in large format sizes with increased viewing for commercial installations.

For more information: Contact Kevin Roth, managing partner, North American Division, 7351 Wiles Road, Unit 202, Coral Springs, Florida, 33076. Call 866-466-9525, fax 866-861-9135, or email Kevin@vistamatic.com.
