For: Bystronic Glass Group

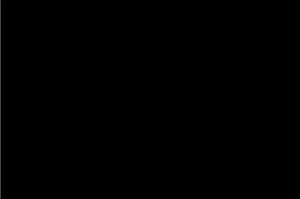

Corporate Name Changes in Bystronic Glass Group

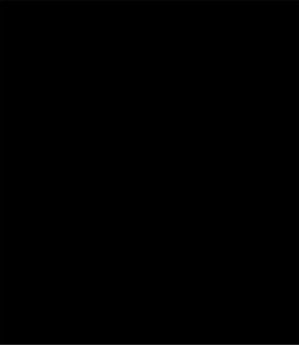

(Aurora, CO) – As of January 1st, 2009, both of Bystronic's German glass technology centers have been renamed. Armatec Vierhaus GmbH is now **Bystronic Armatec GmbH**, and Lenhardt Maschinenbau GmbH is **Bystronic Lenhardt GmbH**.

Richard Jakob, CEO of the Bystronic glass group states: "... we have been in existence as an internal unit for almost six years: We are the Bystronic glass group and communicate as well as trade under this corporate brand." Customers will not at all be affected by the name change: All existing contracts will remain precisely the same. The technology center Bystronic Maschinen AG located in Bützberg, Switzerland, will retain its current name.

About Bystronic Glass Group

Bystronic glass supports the customers' success with application-oriented systems and services for glass processing. The objective is to develop solutions that offer glass users greater safety and comfort. With its increasingly comprehensive ideal solutions, Bystronic glass strives to provide the technology for optimum building and vehicle design using glass. An international brand with worldwide active companies, Bystronic glass supports its customers on-site with its own sales and service companies. Bystronic has been a member of Conzzeta AG since 1994.

About Bystronic Glass Inc.

Bystronic Glass, Inc. is wholly owned by Bystronic AG (Switzerland). The company provides total solutions for the economical, application-engineered fabrication of architectural and automotive glass. Product offerings include customizable systems for the cost-effective production of laminated glass as well as a wide range of flat glass handling systems. From their corporate offices in Denver, CO Bystronic Glass Inc. provides customers in the western regions of Canada and the U.S, as well as Mexico and Brazil sales and administrative support as well as continued quality service, parts inventory, and customer training. Sales and Customer Service offices co-located in New York serve customers in the eastern regions of Canada and the U.S. To learn more about the Bystronic glass group, Bystronic Glass, Inc., and the full range of products, visit www.bystronic-glass.com.
